GENERAL INSTRUCTIONS

ORDER BY CATALOG PRODUCT NUMBER ONLY: It is only necessary to show the catalog product number on your orders. No description required.

SEND ORDERS AND CORRESPONDENCE TO—the Lyon Sales Office in your territory—**not** the General Offices at Aurora. This is necessary for properly recording and servicing your order.

WEIGHTS: Weights shown are approximate weights only—averaged per unit from standard packages.

Note: On a few small items weights are "per package" where indicated.

PRICES: All prices are F.O.B. Shipping Point (as designated on price list) and subject to change without notice. We reserve the right to bill at prices in effect at time of shipment.

Note: On a few small items prices are "per package" where indicated.

If shipment is made into a state which requires us to pay and/or collect a sales, use or occupational tax, the tax will be added as a separate item on our invoice.

SPECIFICATIONS: All specifications including design, material, finish and packaging are subject to change without notice.

FITTINGS: All items listed include necessary fittings for assembly unless otherwise noted.

STANDARD PACKAGING: The "Standard Packaging" column shows the quantity in each package.

Quantity per package was carefully determined to arrive at the lowest possible cost to our dealers —and still provide the most convenient package for shipping, handling and stocking. Adequate provision for broken packages would necessitate a material increase in costs to all dealers. Standard packages will therefore not be broken. **When other than the Standard Packaging quantity is ordered** Lyon reserves the right to increase the order to a standard package. Each package is clearly marked showing quantity included.

For your convenience, prices and shipping weights are shown **per each** (except where specified otherwise) even though more than one is included in a package.

In the few instances where a product requires more than one package the number of packages is clearly indicated—(1 of 2—2 of 2—etc.)

STANDARD PACKAGING (Continued)
All packages are clearly marked with the catalog product number—product name—customer order number—and Lyon order number for proper identification.

ROUTING SHIPMENTS: Unless a preferred routing is specified on your order, shipment will be made best way (freight, express or commercial truck) transportation charges collect.

Unless absolutely necessary please do not specify routing—the Lyon traffic dept. may know of a quicker and more economical way.

DAMAGE IN TRANSIT: All packaging is in accordance with Carrier requirements.

For your protection before accepting any shipment examine it carefully. If there is evidence of damage or shortage insist that the delivering Carrier make suitable notation to that effect on the freight bill before you sign it.

If, after receipt of shipment, concealed damage is discovered, immediately notify the delivering Carrier, requesting immediate inspection. The inspection report should be used to support your claim against the Carrier.

Caution: When you give the delivering Carrier a clear receipt for a shipment in which there is damaged merchandise or a shortage the Carrier is relieved of further responsibility.

Any claim for damage or shortage must be filed by you with the delivering Carrier. Lyon will not accept return of merchandise damaged in transit. Your recourse is with the delivering Carrier.

RETURNED SHIPMENTS: Unless authorized in writing by Lyon, merchandise cannot be returned.

SPECIAL SHELVING INSTRUCTIONS

Shelving pages in Catalog No. 100 show new, easy method of ordering sections and rack ends.

SPECIAL LOCKER INSTRUCTIONS

All locker prices are per locker door opening.

Lockers are packaged one section wide and three sections wide. Order in multiples of three sections for lower price. If necessary, fill out quantity required in sections of one.

CONSULT YOUR LOCAL FREIGHT AGENT frequently for valuable information on LCL and carload weights and rates on Lyon Products.
